

Ranjan Barman

Full Stack Developer

+91 88264 57056 | ranjanbarman6217@gmail.com | Noida, India | spacego.online | linkedin.com/in/ranjanbarman-dev | github.com/code-by-RJ

SUMMARY

Full Stack Developer with 1+ years of freelance experience building and deploying production-grade MERN stack applications. Skilled in RESTful API design, JWT authentication, AI integrations, and responsive UI development. Proven ability to ship complete products from scratch to live deployment.

EXPERIENCE

Freelance Full Stack Developer · *Fiverr · Remote*

2025 – Present

- Built 5+ web apps and landing pages using React, Node.js, Express.js, and MongoDB
- Developed production-ready backends with 10+ REST API endpoints using JWT authentication
- Delivered 3+ SaaS-grade projects with deployment, security hardening, and responsive design

PROJECTS

CodeLens — AI Code Reviewer · *Node.js, Express.js, Gemini 2.0 Flash, JWT* · cl.spacego.online/codelens

- AI-powered code review tool using Gemini 2.0 Flash — detects bugs, security vulnerabilities, and scores code quality on a scale of 0 to 100
- Integrated GitHub URL auto-fetch, JWT authentication via UserSphere, and rate limiting on all endpoints
- Deployed live with CORS hardening, dark-themed responsive UI, and AI-improved code output

MockAPI · *React, Vite, Node.js* · mockapi.spacego.online

- Fake REST API endpoint generator with dynamic schema builder and persistent endpoints — 2 months of development
- Achieved Lighthouse 95+ performance score with zero accessibility violations across all pages
- Implemented security headers (Helmet, CORS hardening), HTTP-only JWT cookies, and code splitting

UserSphere · *Node.js, Express.js, MongoDB, JWT* · app.spacego.online

- Role-based user management system with JWT auth and RBAC — supports Admin, Moderator, and User roles with protected routes
- Used as the authentication backbone for CodeLens — shared secret key across multiple deployed applications

EDUCATION

Bachelor of Computer Applications (BCA) · *IIMT Group of Colleges, Greater Noida*

May 2026

Affiliated – CCSU Meerut

SKILLS

Backend: Node.js, Express.js, REST APIs, JWT Auth, RBAC

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Linux (Ubuntu)

Other: OOP, Agile, CI/CD basics, Network Security (CNS)

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Google (Coursera) · 2026
- IBM Full Stack Software Developer Certificate — IBM (Coursera) · 2026
- Introduction to Modern AI — Cisco Networking Academy · 2026
